HIGHSIDE CHEMICALS, INC.

HIGH PERFORMANCE COIL CLEANER IN A POWDER

EV COIL MAX

- * NO MORE DANGEROUS LIQUID SPILLS.
- * CAN BE SHIPPED WITHOUT EXPENSIVE HAZARDOUS CHARGES.
- * ENVIRONMENTALLY FRIENDLY.
- * USES TRADITIONAL APPLICATORS.
- * EASY CLEAN UP. EASY TO USE.
- * NO ACIDIC RESIDUE.
- * ODORLESS, NO HARSH ACIDIC SMELL.

SAFE AND EFFECTIVE FOR BOTH CONDENSER AND EVAPORATOR COILS

EXTRA LONG SHELF LIFE: With the seal intact COIL MAX has an indefinite shelf life. COIL MAX will not separate and become unusable like most liquid formulas. The worry of how long your coil cleaner has been in inventory or in the service van is gone.

PREVENTS CORROSION: COIL MAX is formulated to produce a high performance monomolecular corrosion inhibitor to help prevent future corrosion of the metals on both evaporator and condenser coils.

SAVES VALUABLE SPACE: One 11.25 oz. Container of COIL MAX is equal to one gallon of 6:1 solution of concentrated liquid coil cleaner. COIL MAX occupies only 1/16 thE space of liquid coil cleaners. Saves shelf space and takes less room in the service van.

DECREASED WEIGHT: Every unnecessary pound shipped increases cost. COIL MAX weighs only 11.25 oz. while ordinary liquid coil cleaners can weigh over 9 pounds (144 oz.). COIL MAX has 13 times less weight to ship.

- **CONTROL INVENTORY,** stock only what you need. It is no longer necessary to place large orders just to obtain a reasonable freight cost.
- ❖ **BETTER HAZARD CONTROL,** COIL MAX avoids dangerous and messy spills that can damage your facility, vehicles and destroy other valuable inventory. Prevents liquid spills that can attract unnecessary regulatory attention.
