

A BUBBLE IS A BUBBLE IS A BUBBLE ...

NEW:
Non-toxic!
Non-hazardous!

...Unless it's a Highside Bubble, Better Bubbles—Better Price.

When it comes to bubbles, the traditional Highside quality you've come to depend on just happens to cost less too. It's what you've been asking for - Lots of bubbles ... Less money ... Highest quality. And at Highside, we hear you!

- **High Viscosity:** Thick enough to stay on the pipe; thin enough to run around it.
- **Large, Lasting Bubbles:** Immediately recognizable.
- **Fast Bubbling:** Bubbles appear as soon as solution contacts the leak.
- **Flourescent:** Locates all leaks, even the smallest bubbles sparkle under light.
- **Choice of Applicators:** Reaches all areas to find large and small leaks.
- **Choice of Temperature Ranges:** Provides superior performance under all conditions—a low temperature product that really sprays!

Available from air conditioning and refrigeration wholesalers throughout the U.S. and Internationally.
