

# RUST BUSTER

# BUSTER™

with ZOOM SPOUT®

RUST BUSTER REALLY works. It typically works instantly, but on heavy duty applications, a liberal amount on a rusted or frozen bolt or car part, and then tapping the part lightly to aid penetration, will usually provide the results desired. After a few minutes, rusted bolts, screws, shafts, piping, any types of "frozen" connections and assemblies will break lose. The light weight oil penetrates well.

Spout reaches up to 14 inches!

**Loosens Rust in Seconds!**  
**Telescoping Spout Extends Reach up to 14 inches!**

**Key Benefits:**

- Works instantly, every time.
- Quickly loosens rusted bolts, screws, shafts, piping, any types of "frozen" connections & assemblies
- Contains no acids, alkali or other harmful ingredients.
- Safe for skin, clothes, metals, and friction-type surfaces.
- Flexible telescoping-spout unit extends a total of 14 inches for difficult-to-reach areas.

**Key Applications:**

Used by professional mechanics in industry and the military.

Rust Buster quickly loosens screws, nuts, shafts and parts frozen by rust. Available in a 4 oz. container with the amazing Zoom Spout, a telescoping spout that lets you apply Rust Buster in hard-to-reach areas.
